Docket No. 50-346

Toledo Edison Company
ATTN: Mr. Donald Shelton
Vice President
Nuclear-Davis-Besse
Centerior Service Company
c/o Toledo Edison Company
300 Madison Avenue
Toledo, OH 43652

Gentlemen:

A Fitness-For-Duty (FFD) inspection is scheduled to be conducted at Davis Besse Nuclear Power Station the week of July 23-25, 1991. Mr. James Kniceley of this office has been designated as the primary contact for this inspection and can be contacted at telephone number (708) 790-5641.

As part of the inspection process, FFD written policies and procedures will be reviewed in the I. Region III office prior to the onsite inspection. You are requested to provide us a copy of the procedures and policies pertaining to your FFD program. If requested by you, these documents will be returned or destroyed after the inspection report has been prepared. Any of the documents that are considered as exempt from public disclosure in accordance with 10 CFR 2.790 should be identified as such and a statement of the reasons for nondisclosure should also be provided as required by 10 CFR 2.790(b). The FFD policies and procedures should be provided to us by July 8, 1991. FFD training material will be reviewed onsite and does not have to be sent to us.

During the inspection, interviews will be conducted with the onsite FFD manager, the Medical Review Officer, the Employee Assistance Program manager, and personnel responsible for the onsite collection and, if appropriate, onsite testing facility. If feasible, please contact Mr. J. Kniceley by July 15, 1991 to arrange an interview schedule for the above personnel. Interviews of randomly selected licensee employees and contractors will also be conducted during the onsite inspection. A room to conduct the interviews will be required.

FFD program audits and program records (including training records, personnel records for FFD program personnel, records of pre-access authorization inquiries, executed contracts with contractors/vendors, and records of chemical test results and appeals, etc) should be available for review. If any of these records are located offsite, please inform Mr. J. Kniceley as soon as practical.

You are also requested to identify a single onsite or corporate licensee representative to act as the point of contact in reference to the items discussed above. Please advise Mr. J. Kniceley of that individual's name and telephone number as early as practical.

Thank you for your assistance in this matter. If you have any questions, please contact me or Mr. J. Kniceley.

Sincerely,

L. Robert Greger, Chief
Reactor Programs Branch
