SUBJECT: REVIEW OF NONSTANDARD FINANCIAL ASSURANCE SUBMITTALS

Following Commission denial, dated March 7, 1991, of the General Electric Company (GE) and Westinghouse Electric Corporation (WE) requests for exemptions from the financial assurance requirements of the decommissioning rule, both corporations responded with financial assurance submittals. The submittals were presented to the Nuclear Regulatory Commission on March 23, 1991. Louis Bykoski of my staff has provided Michael Finkelstein of your staff advance copies of the submittals, for your review. We would appreciate receiving your comments on the submittals by June 5, 1991.

If you have any questions, please contact Timothy C. Johnson at x20558 or Louis Bykoski at x20572.
