Subject: BOMB THREAT

At 7:26 a.m., April 18, 1983, an unidentified male telephoned a security watchperson at a security post located outside of the protected area and stated, "There's a bomb in security." The caller then hung up. The call was made on an internal plant phone system. The licensee immediately initiated a search of all security offices with negative results. The licensee's investigative unit is investigating the incident. This is the third bomb threat of this type received onsite this month.

This Preliminary Notification is issued for information only. Media interest is not anticipated and no press release is planned by the licensee or Region I. The IAT was notified by Region I. The FBI was notified by Region I. The licensee notified the Maryland State Police and the local fire marshal. Region I notified the State of Maryland.
