Dear Mr. Beach:

I have received your letter dated April 5, 1991, which pertains to the response we provided to a Notice of Violation dated February 25, 1991.

I am not sure what you are looking for concerning our plans to improve the effectiveness of the management control of the program. We have changed administrators, obtained a permanent radiologist, named a new Radiation Safety Officer, not the radiologist, and developed some paperwork monitoring systems. All of the personnel involved are very aware of the requirements expected of the program and plan on closely monitoring the system.

I will be happy to discuss the situation with you at your discretion. If you should have any particular plan which you would like to see implemented I would be happy to comply. Please feel free to call me at (307) 332-4420.

Sincerely,

Andrew Gramlich
Chief Executive Officer
