Westinghouse Preheat Steam Generator
D2/D3 Design Modification Evaluation Package
Appendix A

Dear Mr. Eisenhut:

Enclosed are:

- (1) Three (3) copies of Westinghouse Preheat Steam Generator D2/D3 Design Modification Evaluation Package, Appendix A (Proprietary).
- (2) Three (3) copies of Westinghouse Preheat Steam Generator D2/D3 Design Modification Evaluation Package, Appendix A (Non-Proprietary).
- (3) One (1) copy of Application for Withholding, (Non-Proprietary).
- (4) One (1) copy of Affidavit CAW-81-86 (Non-Proprietary).

Appendix A of the Westinghouse Preheat Steam Generator, D2/D3 Design Modification Evaluation Package provides documentation of testing and analyses which are the bases for extending the operational limits of the forward flushing procedure from those specified in Section 9.0 of the Evaluation Package (2/4/83) Addendum). Either Appendix A or the Evaluation Package with Addenda thru 2/4/83 is an acceptable basis for the adequacy of the D2/D3 modification for plant operation within the corresponding specified limits.

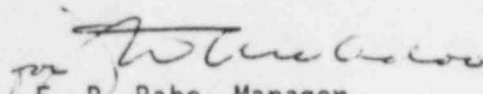

The scope and results of the additional analyses and testing were the subject of a Westinghouse presentation to the NRC Staff and representatives of the utility Design Review Panel at a meeting in Bethesda, Maryland on March 21, 1983.
