DESIGNATED ORIGINAL

Certified by: *J. T. Martin*

Gentlemen:

Subject: Combined Inspection Nos. 50-277/83-05; 50-278/83-05

This transmits the findings of the routine resident safety inspection by Mr. A. R. Blough on February 25 - April 1, 1983 at the Peach Bottom Atomic Power Station, Delta, Pennsylvania. These findings were based on observation of activities, interviews, measurements, and document reviews, and have been discussed with Messrs. R. S. Fleischmann and D. C. Smith of your staff.

Apparent violations of NRC requirements are cited in Appendices A and B and categorized in accordance with 10 CFR 2 Appendix C and Federal Register Notice 47 FR 9987 (March 9, 1982). A reply is required and should be prepared in accordance with Appendix A. The requirement that you reply is exempt from clearance by the Office of Management and Budget under the Paperwork Reduction Act of 1980, PL 96-511.

In addition to the Notices of Violation forwarded herewith, two apparent violations, failure to meet Technical Specification Limiting Conditions for operation for primary containment integrity and inadequate review of proposed modifications per 10 CFR 50.59, are detailed in the enclosed report. We consider these matters to be very serious. The violation of containment integrity is indicative of continued failure to ensure adherence to established procedural controls at Peach Bottom. We would like to discuss these concerns at an enforcement conference and will contact you in that regard. These items will be forwarded under separate correspondence.

Sections of the enclosed inspection report contain details of your security program that have been determined to be exempt from public disclosure in accordance with either 10 CFR 73.21 (Safeguards Information) or 10 CFR 9.5(a)(4) (Commercial or Financial Information). Therefore, the sections so identified in the inspection report and Appendix B will not be placed in the NRC Public Document Room and will receive limited distribution. The inspection report cover sheet and any remaining portions of the inspection report will be placed in the Public Document room, in accordance with 10 CFR 2.790(a), unless you notify, by telephone, the Supervisor, Files, Mail and Records, USNRC Region I, at (215) 337-5223, within 10 days of the date of this letter and submit written application to withhold information contained in the report within thirty days of the date of this letter. Such application must be consistent with the requirements of 10 CFR 2.790(b)(1).
