ATTN: Mr. John Chapin, Acting Director  
Bureau of Environmental Health  
Post Office Box 309  
Madison, WI 53701

Cooperative Agreement NRC-30-83-647

Gentlemen:

This refers to the performance appraisal of the environmental monitoring program (Cooperative Agreement NRC-30-83-647) conducted by D. G. Wiedeman of this office, at the State of Wisconsin Department of Health and the State Laboratory of Hygiene on April 17-19, 1991, and to the discussion of our findings with Messrs. D. Hessemer and D. Hendriske and other staff members of the Department of Health at the conclusion of the appraisal on April 19, 1991. This also refers to the subsequent telephone conversation between Mr. Paul Schmidt and D. G. Wiedeman of this office on April 22, 1991.

The enclosed report identifies several general areas examined during the appraisal. Within these areas, the appraisal consisted of a review of selected records, procedures and discussions with the management and staff of the Bureau of Environmental Health (BEH), and the State Laboratory of Hygiene (SLH).

Based on the appraisal results, we believe the State of Wisconsin has the necessary personnel, equipment and facilities to continue to satisfy the conditions of the cooperative agreement. Therefore, we recommend continuation of the cooperative agreement currently in force.

We will gladly discuss any question you have concerning this appraisal or the existing cooperative agreement.

Sincerely,  
  
ORIGINAL SIGNED BY C. E. NORELIUS  
  
Charles E. Norelius, Director  
Division of Radiation Safety  
and Safeguards
