MEMORANDUM FOR: Region III Files

THRU: D. G. Wiedeman, Chief, Materials Radiation Protection Section 1

FROM: D. R. Gibbons, Radiation Specialist

SUBJECT: GENERAL MOTORS CORPORATION, LA GRANGE, ILLINOIS  
LICENSE NO. 12-08050-01 - ATTEMPTED INSPECTION

An attempt was made to perform an unannounced inspection of activities authorized by the subject license on April 4, 1983. The inspector was informed by the Supervisor of the Metallurgical Laboratory, Mr. Ronald E. Blough, that the radiography device was returned to the vendor, Technical Operations, Inc. on February 26, 1975. The licensee completed a Form NRC-314 during the inspection and attached copies of the vendor's Isotope Receipt records.

The inspector forwarded the Form NRC-314 to personnel in the RIII Licensing Branch. An amendment to terminate this license was initiated.
