A meeting was held on June 6, 1994 with the Chairman, Mr. James Taylor, Mr. Zack Pate, INPO CEO, and myself. The meeting was requested by Mr. Pate. He wanted to bring to NRC attention observations and concerns in connection with NRC's Regional management and operations. He subsequently enumerated his concerns in a letter to the Chairman dated June 9 1994. The Chairman and Mr. Taylor listened carefully to Mr. Pate during the meeting. Immediately following the meeting, Mr. Taylor indicated to the Chairman that he would follow up as appropriate. Following the June 6 meeting, Mr. Taylor extensively discussed the INPO concerns with the involved Regional management and will continue followup as needed.

On June 16, 1994, the Chairman responded to Mr. Pate's letter and their earlier conversation. The Chairman's letter expressed Mr. Taylor's support for the regulatory actions taken by NRC's regional management in those instances where poor operational safety performance has been identified.
