License No. 13-00133-02

Dear Sister Peck:

This refers to the routine safety inspection conducted by Mr. C. T. Oberg of this office on February 24, April 8 and 11, 1983, of activities authorized by NRC Byproduct Material License No. 13-00133-02 and to the discussion of our findings with Messrs. W. F. Tayler and J. E. Durlacher at the conclusion of the inspection.

This also refers to the telephone conversation of April 8 and 11, 1983, between members of your staff and the NRC inspector regarding the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

In addition to the above areas, the inspector examined actions described in your letter dated February 22, 1982, regarding apparent items of noncompliance found during our December 10, 14, and 15, 1981 inspection. We have no further questions regarding these matters.

During this inspection, certain of your activities appeared to be in non-compliance with NRC requirements, as specified in the enclosed Appendix. A written response is required.

The responses directed by this letter (and the accompanying Notice) are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
