Dear Ms. Adensam:

In the Matter of
Tennessee Valley Authority

) Docket No. 50-327
) 50 328

By L. M. Mills' letter to H. R. Denton dated December 31, 1980 (TVA-SNP-TS-8), we requested a license amendment to revise the technical specification for our Sequoyah Nuclear Plant, unit 1. We have reviewed the proposed technical specification associated with the number of fire detectors and find that this change is no longer necessary. Therefore, we withdraw our request for a technical specification change to the number of fire detectors.

If you have any questions concerning this matter, please get in touch with J. E. Wills at FTS 858-2683.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
