RE: Exxon Highland Expanded R&D Pilot In-Situ Mine, Permit 2180

Dear Mr. Linehan:

Our Department received a copy of the April 19, 1983 letter Mr. James E. Gilchrist of Exxon sent to you. The purpose of this letter is to inform you that this Department does not have any objections to Exxon modifying the frequency of their excursion monitoring program from once every two weeks to once a month. The site is approaching baseline conditions at this time and, therefore, the possibility of an excursion has been greatly reduced.

If you have any questions, please contact the undersigned.

Sincerely,

Nancy Freudenthal
Acting Administrator
