

DOCKET NUMBER **50-289**
PROD. & UTIL. FAC.

Carson City
Nev. 89111
2-2-1981

Mr. James F. Ahern
Chairman
U.S. Nuclear Reg. Comm.
1717 H St N.W.
Wash. D.C.

Dear Mr. Ahern, I am
writing in regard to Docket #50-289SP,
TMI Unit 1 Middletown, Pa.

I believe we should promote
and use our ability to generate
power with nuclear energy. I
am afraid we will fall dangerously
behind the world in power and also
our balance of trade if we do not
act on this matter. I am hoping
for a responsible and realistic
action on the part of our Congress
on this and all matters.

Thank you
Charles W. Simmons
