LICENSEE'S RESPONSE TO DECADE REQUEST  
FOR LEAVE TO RESPOND TO STAFF AFFIDAVIT

By letter dated August 11, 1983, Wisconsin's Environmental Decade, Inc. ("Decade") requests leave to respond to the "Affidavit of Herbert F. Conrad." The Conrad affidavit was provided to the Appeal Board on August 1, 1983, in response to the Appeal Board's request for the Staff's assessment of eddy current testing techniques in the transition region of steam generator tubes. See "Memorandum and Order" (July 8, 1983).

Licensee opposes Decade's request. The Appeal Board has affirmed the dismissal of Decade's petition for intervention in this proceeding. See ALAB-719, 17 N.R.C. \_\_\_\_ (March 22, 1983), aff'g, LBP-82-108, 16 N.R.C. \_\_\_\_ (December 10, 1982). As the Appeal Board has emphasized:

Decade is not, and has never been, a party to this proceeding. \* \* \* The fact that Decade has filed with the Commission a petition for review of the denial of its intervention petition does not by itself endow Decade with party status.

"Memorandum and Order" (July 8, 1983), at 4 n.3. Lacking party status, Decade has no right to respond to the Staff affidavit, and the request must therefore be denied.

In any event, nothing in the history of this proceeding (or the companion "sleeving" proceeding)<sup>1/</sup> suggests that Decade is equipped to make a significant substantive contribution to the development of the record beyond that made by the Staff and Licensee. Certainly Decade's August 11 letter attempt is no such showing, asserting nothing more than the desire of Mr. Anderson, a non-expert, to take exception to the Staff's affidavit. Decade's pending petition for Commission review consists of little more than a restatement of its proposed contentions and "a broad harangue against the Commission's generic policies with respect to steam generator tube leakage." Compare "Petition For Review of Appeal Board Decision" (April 7, 1983) with "Answer to Wisconsin Electric Power Company In Opposition To Petition For Review of Appeal Board Decision ALAB-719" (April 22, 1983) and "NRC Staff's Answer In Opposition To Wisconsin's Environmental Decade Petition For Review" (April 22, 1983). Similarly, its brief on appeal to the Appeal Board "merely quote[d], with little more, its original contentions" (ALAB-719, supra, slip op. at 17-18) -- contentions which were themselves based on nothing more than "unconnected quotations drawn from various documents and technical reports" (Id., at 10-11).

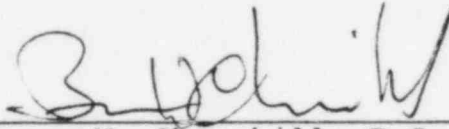

---

<sup>1/</sup> Wisconsin Electric Power Co. (Point Beach Nuclear Plant, Units 1 and 2), Docket Nos. 50-266 and 50-301 (OLA-1).

In short, Decade has to date evidenced either an inability or an unwillingness to assist substantively in the development of the record in this proceeding. Given Decade's opportunities to make a substantive contribution to the record, and its repeated failure to do so, there is no indication that Decade can contribute at this late date significant factual information bearing on the subject matter of this proceeding.

Respectfully submitted,

SHAW, PITTMAN, POTTS & TROWBRIDGE
