Dear Mr. Rathbun:

Enclosed is a copy of correspondence I received from Helen Richick, Executive Director, Aberdeen Proving Ground Superfund Citizens Coalition (APGSCC), regarding the Coalition's interest in acquiring copies of all NRC licenses and contamination reports to the U.S. Army Aberdeen Proving Ground (APG) including Edgewood Arsenal.

It would be appreciated if you would review the enclosed correspondence and provide me with a report so that I may be able to respond appropriately.

Thank you for your attention to this matter and I look forward to hearing from you.

With best regards,

Sincerely,
