and Document Control

FROM: Robert A. Clark, Chief
Operating Reactors Branch #3
Division of Licensing

SUBJECT: RELEASE OF INFORMATION FOR PUBLIC DISCLOSURE

By letter dated April 6, 1983, we transmitted to the Northeast Nuclear Energy Company a Safety Evaluation with an attached FRC Technical Evaluation Report regarding Environmental Qualification of Safety Related Electrical Equipment. The Technical Evaluation Report contained certain information which NNECO had previously claimed to be proprietary, and we requested NNECO to review the indicated proprietary material and inform us if the material still required proprietary protection.

By letter dated April 25, 1983, NNECO informed us that it was no longer necessary to withhold the material as proprietary. Accordingly, the FRC TER should be made publicly available. Please have it placed in the NRC and Local Public Document Rooms and make the appropriate adjustments to the records.
