Gentlemen:

Subject: Inspection 50-219/83-04

This refers to your letter dated May 6, 1983, in response to our letter dated April 6, 1983.

Thank you for informing us of the corrective and preventive actions documented in your letter.

With respect to violation A, we agree that the package in question did not enter the protected area prior to being searched, however, this was due to direct intervention by our inspector. The package was improperly searched and released by your security personnel for entrance into the protected area. When our inspector observed the improper search, he notified a security supervisor who acted by stopping and reexamining the package. If not for our inspector's action, the package would have entered the protected area. In view of your security program's failure to ensure proper examination of material entering the protected area, the violation stands.

Your letter addresses the corrective actions you have taken to ensure proper search techniques in the future. These actions and the actions relating to violations B and C will be examined during a future inspection of your licensed program.

Your cooperation with us is appreciated.

Sincerely,
