Re: Freedom of Information Act Request

Dear Sir:

Under the provisions of the Freedom of Information Act, 5 U.S.C. 552, I am requesting access to equipment reports on the number of drilling rigs that are owned or leased by the Nuclear Regulatory Commission and used for obtaining drinking water or for the exploration, testing sampling, or measurement of ground water. Please provide this data for all offices or bureaus within the commission.

In addition, I am seeking accounting records showing the total amount spent by your commission on groundwater-related drilling activities for fiscal years 1991 and 1992. If the data is broken down by in-house drilling work and what was contracted out, I would also appreciate you providing those figures separately.

If there are any fees for searching for or copying the records I have requested, please inform me before you fill the request, unless the fee does not exceed \$50.00.

Page 2)

If all or any part of this request is denied, please cite the specific exemption(s) that you think justifies your refusal to release the information, and inform me of the appeals procedures available to me under the law.

I would appreciate you handling this request as quickly as possible, and I look forward to hearing from you.

Sincerely,

National Ground Water Association
