SUBJECT: EVALUATION OF LICENSEES' 10 CFR 50.54(p) REPORTS

After our meeting on February 14, 1983, our office queried ELD on procedures and concerns for dealing with licensees' reports of changes to their security and safeguards contingency plans made pursuant to 10 CFR 50.54(p).

The attached note, dated June 8, 1983, from Joseph Scinto, expresses ELD's interpretation of the regulation in handling reports of changes pursuant to 10 CFR 50.54(p). We believe our past practice in handling licensees' 10 CFR 50.54(p) requests has been consistent with ELD's interpretation. The referenced correspondence is attached for your information.
