Subj.	LEAD ENGINEER FOR ATWS PROGRAM	Date JULY 18, 1979

This letter is sent you together and one subject only

Art McBride's resignation from BW makes it necessary to redesignate the engineering lead responsibility for the ATWS program. I have discussed this with Mr. Karrasch and Mr. LaBelle, and we have agreed that Mr. Steve Banwarth, reporting to Dan LaBelle, should assume these lead engineer responsibilities when Mr. McBride leaves.

Mr. Banwarth will begin working with Mr. McBride immediately to assure an orderly transition and will plan to attend the scheduled series of ATWS meetings with the customers and with the NRC next week.

I believe you would join me in recognizing and expressing appreciation for Art McBride's considerable contributions to this program and in soliciting the continued assistance of the entire ATWS team for Steve Banwarth as he assumes the lead in engineer responsibilities.
