Upgraded Emergency Operating Procedures

Reference: Letter from Mr. A. E. Lundvall, Jr. to
Mr. R. A. Clark, dated April 15, 1983

The referenced letter provided our initial response to NUREG 0737, Supplement 1, "Emergency Response Capability," with regard to our program for developing a set of function-oriented Emergency Operating Procedures (EOPs). In that letter we informed you of our preliminary plans to utilize the generic Emergency Procedures Guidelines (EPG) developed by the CE Owners Group (CEOG) for procedures generation.

The purpose of this letter is to provide confirmation that we are currently using the CEOG EPGs (CEN-152, Rev. 1) in the development of our emergency procedures. The NRC issued its approval of CEN-152, Revision 1 in a letter from Mr. D. G. Eisenhut to R. G. Wells (CE), in a letter dated February 4, 1983.

If there are any questions, please do not hesitate to contact us.

Sincerely,

AEL/BSM/kah
