SUBJECT: NRC INSPECTION NO. 50-443/94-25

Dear Mr. Feigenbaum:

This letter refers to the physical security inspection conducted by Mr. A. Della Ratta of this office on October 17-21, 1994 of activities authorized by NRC License No. NPF-86 at the Seabrook Station, Unit 1, Seabrook, New Hampshire and to the discussions of our findings held by Mr. Della Ratta with Mr. L. Walsh and other members of your staff.

Areas examined in this inspection are important to public health and safety, and are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of this inspection, you had in place effective programs for protecting public health and safety. Continued excellent management support for the program was evident. No safety concerns or violations of regulatory requirements were observed and no response to this letter is required.

Your cooperation with us is appreciated.

Sincerely,
