

APPENDIX A

NOTICE OF VIOLATION

Omaha Public Power District  
Fort Calhoun Station

Docket No. 50-285/91-06  
License No. DPR-40

During an NRC inspection conducted on March 11-15, 1991, one violation of NRC requirements was identified. The violation involved inadequate access control - personnel. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1990), the violation is listed below:

License Condition 3.D of Amendment 42 to the Fort Calhoun Station Facility Operating License, dated March 25, 1981, requires that the licensee maintain in effect and fully implement all provisions of the Commission-approved physical security plan (PSP), including amendments and changes made pursuant to the authority of 10 CFR 50.54(p).

Inadequate Access Control - Personnel

The licensee's PSP requires that all personnel are to be searched by portal detectors designed to detect firearms prior to entering the site. Further, the metal detectors are required to be capable of detecting a calibrated test source, consisting of a minimum of 227 grams of nonferrous metal located anywhere on an individual.

10 CFR 73.55(d)(1) states, "The search function for detection of firearms, explosives, and incendiary devices must be accomplished through the use of both firearms and explosives detection equipment capable of detecting those devices."

Contrary to the above, the inspector determined on March 13, 1991, through licensee tests of the metal detectors that all three metal detectors failed to detect a firearm used by the licensee as a test device.

This is a Severity Level IV violation. (Supplement III) (285/9106-01)

Pursuant to the provisions of 10 CFR 2.201, Omaha Public Power District is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region IV, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not

received within the time specified in this Notice, an order may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time. Under the authority of Section 182 of the Act, 42 U.S.C. 2232, this response shall be submitted under oath or affirmation.
