10CFR50.55(e) Report; Cold Pulling of Pipe", J. DeVincentis
to R. W. Starostecki

Subject: Interim 10CFR50.55(e) Report; Cold Pulling of Pipe

Dear Sir:

On November 10, 1982, we reported a potential 10CFR50.55(e) item
[Reference (b)] regarding the potential for pipe and component overstress due
to exceeding pipe pulling limits during welding fit up.

In Reference (c), we provided an interim report on this item and
indicated that we would submit another report by July 15, 1983.

As mentioned in Reference (c), Pullman-Higgins is continuing their review
of isometrics and weld process sheets for determination of closure welds
already completed. The purpose of this letter is to inform you that
Pullman-Higgins' efforts are now scheduled to be complete by December 15,
1983, at which time a report on this subject will be issued.

Very truly yours,

YANKEE ATOMIC ELECTRIC COMPANY
