SUBJECT: CLOSURE OF INVESTIGATION CASE NO. 4-94-013R

Dear Mr. Brown:

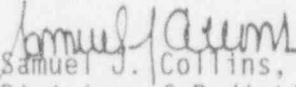

This is in reference to an investigation conducted by the NRC's Office of Investigations (OI) regarding a former employee's complaint that he had been discriminated against for expressing concerns about noncompliance with NRC's radiation safety requirements.

The investigation was conducted to determine whether the former employee, a supervisory highway engineer, had been subjected to discrimination in violation of 10 CFR 30.7 of the NRC's regulations, "Employee Protection." The investigation did not develop evidence to support such a conclusion.

The investigation is closed and no further action is planned with respect to the investigative conclusions. Please contact us should you have any questions about this matter.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be placed in the NRC's Public Document Room.

Sincerely,

  
Samuel J. Collins, Director  
Division of Radiation  
Safety & Safeguards
