Docket No+ 50-461

Illinois Power Company
ATTN: Mr. W. C. Gerstner
Executive Vice President
500 South 27th Street
Decatur, IL 62525

- References:
1. Ltr. J.G. Keppler to W.C. Gerstner dated January 27, 1982
 2. Ltr. D.P. Hall to J.G. Keppler dated June 24, 1983
 2. Inspection Report 50-461/82-02, 50-461/82-10, 50-461/82-15, and 50-461/83-02

Gentlemen:

This letter acknowledges your letter dated June 24, 1983, requesting concurrence in your plans for lifting Stop Work Order 007 on electrical cable tray and tray attachments. Based on our continuing review and site inspections we have determined that you have accomplished the prerequisites outlined in Reference 1.

Based on our review, we concur in your lifting Stop Work 007. Results of your efforts will be documented in routine NRC inspection reports.

It is our understanding that before safety related cable is pulled, the electrical raceway system involved will be inspected and all nonconforming conditions corrected in accordance with your established level III scheduling system. Further, based on the discussion during the exit meeting on July 15, 1983, it is our understanding that on an ongoing basis, you are comparing job instructions, and QC instructions and checklists with appropriate QA verification checklists and specifications, to assure that the installer, QC inspector and QA inspector are using compatible requirements, tolerances and acceptance criteria.

Docket No. 50-461

Mr. James G. Keppler
Regional Administrator
Region III
U. S. Nuclear Regulatory Commission
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Subject: Stop Work Order No. 007
Electrical Cable Tray and Tray Attachment Installation

Dear Mr. Keppler:

On January 18, 1982 a Stop Work Order was initiated on electrical cable tray and tray attachment installation. A recovery plan was developed to correct the deficiencies associated with the Stop Work Order.

Illinois Power Company received a Confirmatory Action Letter dated January 27, 1982 which documented problems identified during the Nuclear Regulatory Commission's ongoing inspection in the area of the safety related electrical work at the Clinton Power Station. The letter also stated their understanding of what action Illinois Power has taken and/or will take to resolve those problems.

Illinois Power Company has completed the actions stated in the January 27, 1982 Confirmatory Action Letter and the portions of the recovery plan which are necessary to lift the Stop Work Order. The appropriate procedures and instructions have been revised and training has been accomplished and documented.

It is requested that you review Illinois Power Company's actions and concur in lifting the Stop Work Order on electrical cable tray and tray attachment installation.

Sincerely yours,

D. P. Hall
Vice President
