SUBJECT: NRC INSPECTION REPORT 030-29000/94-01

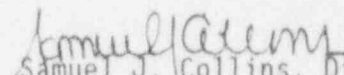

Thank you for your letter of November 8, 1994, in response to our letter and Notice of Violation dated October 21, 1994. We have reviewed your reply and find it responsive to the concerns raised in our Notice of Violation.

However, we noted that your response references older sections of 10 CFR Part 20 that have since been revised and in effect since January 1, 1994. Specifically, the requirements in the old 10 CFR 20.205 have been replaced by 10 CFR 20.1906. The record keeping requirements for 10 CFR 20.1906 are stated in 10 CFR 20.2103(a). Further, note that the old package receipt regulations (10 CFR 20.205) also had associated record keeping requirements (10 CFR 20.401(b)). However, as described in your letter, Superior Production Logging, Inc. was exempt from the survey requirements in effect prior to January 1, 1994.

You should have received copies of the Revised Part 20 and notices alerting you to its effective date. Nonetheless, enclosed for your use is a copy of the current 10 CFR Part 20 regulations. You should review these to ensure that you are maintaining compliance and that your Operating and Emergency Procedures Manual reflect the current regulations. Also note that NRC regulations take precedence over a licensee's procedures unless a specific exemption has been granted.

We will review the implementation of your corrective actions during a future inspection to determine that full compliance has been achieved and will be maintained. If you have any questions about the contents of this letter please contact the inspector of your facility at (817) 860-8100.

Sincerely,

Samuel J. Collins, Director
Division of Radiation Safety and
Safeguards
