Gentlemen:

Subject: NRC Inspection

This refers to the special safety inspection conducted by Mr. J. F. Pang of this office on May 26-27, 1983 of activities authorized by NRC License No. 04-07840-01 and to the discussion of our findings held by Mr. Pang with Col. A. Murray and other members of your staff at the conclusion of the inspection.

Subsequent to the enforcement conference held on June 8, 1982, this was an early reinspection of the activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Based on the results of this inspection, it appears that certain of your activities were not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation enclosed as Appendix to this letter. These items have been categorized into severity levels as described in the NRC Enforcement Policy, 10 CFR Part 2, Appendix C.

Your response to this Notice is to be submitted in accordance with the provisions of 10 CFR 2.201 as stated in Appendix A, Notice of Violation.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980 PL 96-511.
