

ENCLOSURE

Nite-Site, Incorporated
Licenses No. 22-13585-01 and
No. 22-13585-2G

Certain activities under your licenses appear to be in violation of AEC requirements. The following violations are considered to be of Category III severity:

License No. 22-13585-01 only

1. 10 CFR 19.11 (a) and (b): "Posting of notices to workers," requires in part, that each licensee post current copies of 10 CFR Parts 19 and 20, the license, and related documents and procedures referenced in the license. If posting of the above documents is not practicable, a notice may be posted which describes the documents and states where they may be examined.

Contrary to the above, the documents identified above were not posted nor was any notice posted which described where they may be found.

2. 10 CFR 19.11 (c), "Posting of notices to workers," requires that Form AEC-3, "Notice to Employees," shall be posted by each licensee wherever individuals work in or frequent any portion of a restricted area.

Contrary to the above, Form AEC-3 was not posted.

3. 10 CFR 20.203 (e) (1), "Caution signs, labels, signals, and controls," requires rooms in which licensed material is used or stored shall be posted with a sign bearing the radiation caution symbol and the words, "Caution - Radioactive Material."

Contrary to the above, your material storage room was not posted, "Caution - Radioactive Material," as required.

License No. 22-13585-2G only

4. License Condition 7 requires that the licensee shall file a report with the Director, Division of Materials Licensing, U. S. Atomic Energy Commission, which shall list all transfers of rights distributed under this license to persons generally licensed under Section 31.5, 10 CFR 31. Such report shall identify each general licensee by name and address, the type of right transferred, and the quantity and type of byproduct material contained in the right. If no transfer of byproduct material has been made under the provisions of this license during the reporting period the report shall so state. The report shall be submitted within 30 days after the end of each calendar quarter.

SURNAME						
DATE						

Contrary to the above, no reports were submitted for the fourth quarter of 1973 and the first quarter of 1974.

5. License Condition 9 requires that the licensee shall cause each gun site removed from a gun to be tested for leakage and contamination not more than 30 days after its removal and shall maintain records of each such removal and test for inspection by the Commission. The licensee shall file a report with the Director, Division of Materials Licensing, U. S. Atomic Energy Commission, reporting all such removals and tests. If no removals or tests have been made during the reporting period, the report shall so state. The report shall be submitted within 30 days after the end of each calendar year.

Contrary to the above, no annual reports have been submitted since the issuance of the license.
