File Cop

## NOV 0 5 1982

MEMORANDUM FOR: John W. N. Hickey, Section Leader, Industrial Section,

Material Licensing Branch, Division of Fuel Cycle &

Material Safety

THRU:

Donald J. Sreniewski, Chief, Materials Radiation Protection

Section 2

FROM:

James R. Miller, Chief, Technical Inspection Branch

SUBJECT:

LEADERSHIP KEYS, INC. (LICENSE NO. 21-19874-01) AND

NITE-SITE, INC. (LICENSE NO. 22-13585-02G) GUNSIGHT

RECIPIENT SURVEY

Attached for your information is a list summarizing interviews held with 14 general licensees who have received either Leadership Keys or Kite-Site luminous gunsights. The interviews were conducted in person between July 27 and September 29, 1982.

The numbered columns refer to the information requested in memo dated July 15, 1982, from V. L. Miller to J. H. Joyner (copy of questions enclosed).

Also enclosed are copies of the most recent inspection reports and letters sent to both licensees.

Any questions on this matter may be directed to me or Robert E. Burgin (FTS 384-2622).

J. R. Miller, Chief

Technical Inspection Branch

Enclosures: As stated

## CUESTIONS

- What is the nature of the business requiring use of the gunsight? (This is the question NMSS is most interested in getting answers to.)
- 2. Is the customer aware that he is subject to NRC requirements? Was he informed of this by Nite-Site or Leadership Keys? Is he aware he cannot sell or abandon the gunsight?
- 3. Is the gunsight or weapon labelled as required?
- 4. If the customer no longer possesses the gunsight, how did he dispose of it? Was it transferred to a specific licensee as required?
- Has a leak test sample been submitted to Nite-Site as required? Does the general licensee have a record of leak test result? (not applicable to Leadership Keys' customers)
