December 7, 1994

SUBJECT: REMEDIAL ACTION INSPECTION PLAN FOR AMBROSIA LAKE, REVISION 3,
 REVIEW C

Dear Mr. Cormier:

Mr. Frank Bosiljevac's letter of October 21, 1994, transmitted to the U.S. Nuclear Regulatory Commission for review and concurrence Revision 3, Review C of the Remedial Action Inspection Plan (RAIP) for the Ambrosia Lake, new Mexico, Uranium Mill Tailings Remedial Action (UMTRA) Project Site. The NRC staff has reviewed the RAIP and determined that it adequately addresses the staff comments on RAIP Revision 3, Review B, transmitted to you by NRC letter dated August 30, 1994. Therefore, the staff concurs that the RAIP, Revision 3, Review C, is satisfactory.

Based on telephone conversations between Milt Scoutaris of the UMTRA Project Office, and Ken Hooks of the NRC, the NRC staff understands that it is not expected to sign the concurrence page which was included in the RAIP. In addition, it was necessary for Mr. Scoutaris to transmit a facsimile copy of the pertinent pages of MK - Ferguson Company QA/QC Work Procedure No. 4 for the NRC staff to verify that RAIP paragraph 6.5.6 satisfied our earlier comment. Please note that the NRC staff does not maintain a set of MK-Ferguson Company procedures. Therefore, incorporation of the information in the RAIP or inclusion of the pertinent procedure pages in the UMTRA Project Office transmittal is appropriate.

If you have any questions concerning this letter, please contact the NRC Project Manager, Ken Hooks, at (301) 415-7777.

Sincerely,

JS
 Joseph J. Holonich, Chief
