SUBJECT: Calvert Cliffs Nuclear Power Plant
Unit Nos. 1 & 2; Docket Nos. 50-317 & 50-318
Comments on Proposed Revisions to 10 CFR Part 54, Nuclear Power Plant
License Renewal (59FR46574)

We welcome the opportunity to comment on the Nuclear Regulatory Commission (NRC) proposal to amend 10 CFR Part 54. We support the comments submitted by the Nuclear Energy Institute. More importantly, we support the efforts by the NRC to add simplicity, stability and predictability to the license renewal process that was missing in the original rule. We consider the proposed amendments a clear, positive step.

Should you have any questions regarding this matter, we will be pleased to discuss them with you.

Very truly yours,

RED/JMO/bjd
