

JUL 28 1983

Project No. 668

Mr. E. P. Rahe, Jr., Manager
Nuclear Safety Department
Westinghouse Electric Corporation
P. O. Box 355
Pittsburgh, Pennsylvania 15230

Dear Mr. Rahe:

The material provided to the NRC in your letters of March 29, 1983 (re: Westinghouse Advanced Pressurized Water Reactor Pretendering Module No. 3 - Reactor Coolant System); March 31, 1983 (re: Westinghouse Advanced Pressurized Water Reactor Pretendering Module No. 4 - Emergency Seal Injection System); April 29, 1983 (re: Westinghouse Advanced Pressurized Water Reactor Pretendering Module No. 5 - Chemical and Volume Control System); June 30, 1983 (re: Westinghouse Advanced Pressurized Water Reactor Pretendering Module No. 6 - Reactor System); and June 13, 1983 (re: Westinghouse Advanced Pressurized Water Reactor PDA Module No. 6.3 - Primary Side Safeguards System (Trial)) contains information that you requested be withheld from public disclosure in accordance with Commission regulations regarding the handling of proprietary information. Since the material was for the general information of the staff and is not intended to be used as a basis for any official actions by the NRC, we will treat this material as proprietary information within the provisions of NRC Manual Chapter 9.5(4) "Freedom of Information Act Regulations," with the following exceptions:

- (1) Information which is found to be generally available to the public will not be treated as proprietary.
- (2) Information which is available to the government or becomes available on an unrestricted basis will thereafter be treated as non-proprietary.
- (3) Documentary material requested under the Freedom of Information Act (5 U.S.C. 552) will be reviewed at the time the request is received and a determination made whether such information may be withheld from public disclosure. This determination will be made on the basis of additional information which will be required to be furnished to the NRC in support of Westinghouse's proprietary position.

- (4) The NRC, under a nondisclosure agreement, may disclose this information to licensees and applicants if such disclosure is necessary to assure that the public health and safety is adequately protected.

If there is a need to consider the public disclosure of Westinghouse's proprietary material identified in this letter, it is our intention that Westinghouse would be notified prior to making a disclosure determination and that such a determination would be made in accordance with the procedures and conditions of 10 CFR 9, Subpart A. Should Westinghouse employ these data as part of any license application or any other action identified in 10 CFR 2.790(a), such data shall be separately submitted and such submittal shall include an application for withholding accompanied by an affidavit meeting the requirements of 10 CFR 2.790(b).

We hope that the provisions set forth in this letter for control of this information are acceptable to you.

Sincerely,

Cecil O. Thomas, Chief
Standardization & Special
Projects Branch
Division of Licensing
