IN RESPONSE REFER  
TO FOIA-83-236

Dear Mr. Sholly:

This is in reply to your letter dated May 6, 1983, in which you requested, pursuant to the Freedom of Information Act, that copies of any and all records be made available in the NRC Public Document Room, 1717 H Street, N.W., Washington, D.C., concerning the following two categories of information described in your letter:

- A. Any and all records relating to contacts between the NRC Staff including ACRS employees and members and NRC contractors and any NRC Commissioner (or his staff) regarding the results of the Reactor Safety Study Methodology Applications Program (RSSMAP) analysis of the Calvert Cliffs Unit 2 nuclear plant and subsequent proposals by the staff, NRC contractors, with Baltimore Gas & Electric (and its contractors) to institute any changes in the plant or operating procedures to correct safety problems revealed by the RSSMAP analysis and
- B. Any and all documents relating to contacts between the NRC Staff and NRC contractors with the ACRS, ACRS Staff, and ACRS Fellows regarding the RSSMAP analysis of Calvert Cliffs Unit 2 and any subsequent proposals for corrective actions.

In response to your request, be informed that in our response to your earlier FOIA request (FOIA-83-123) for RSSMAP information, we supplied numerous documents to the PDR. Some of those documents are responsive to this request and they are listed on Appendix A. We have not located any additional documents that may be subject to your request.

This completes action on your request.

Sincerely,

*Donnie H. Hambley*

(for) J. M. Felton, Director  
Division of Rules and Records  
Office of Administration
