

January 5, 1983

Docket No. 50-409
LS05-83-01-008

Mr. Frank Linder
General Manager
Dairyland Power Cooperative
2615 East Avenue South
LaCrosse, Wisconsin 54601

Dear Mr. Linder:

SUBJECT: SEP TOPIC VI-7.A.3, ECCS ACTUATION SYSTEM
FINAL SAFETY EVALUATION FOR THE
LACROSSE BOILING WATER REACTOR

The enclosed final safety evaluation report on the subject topic is a revision to the draft report forwarded by a letter from D. M. Crutchfield to F. Linder dated February 17, 1982. The revision results from an error in our contractor's technical evaluation report.

To be consistent with previous SEP reviews, we recommend that the testing now required by the plant operating procedures be placed in the Technical Specifications.

The need to actually implement this change will be determined during the integrated safety assessment. This topic assessment may be revised in the future if your facility design is changed or if NRC criteria relating to this topic are modified before the integrated assessment is completed.

Sincerely,

Original signed by:

Dennis M. Crutchfield, Chief
Operating Reactors Branch No. 5
Division of Licensing
