Docket No. 40-8902
SUA-1470, Amendment No. 12
04008902460E

ARCO Coal Company
ATTN: Mr. R. S. Ziegler
P.O. Box 638
Grants, New Mexico 87020

Dear Mr. Ziegler:

Pursuant to Title 10, Code of Federal Regulations, Part 40, and in accordance with your submittal dated April 11, 1991, as modified by the staff, Source Material License SUA-1470 is hereby amended to authorize revised environmental sampling locations by adding Condition No. 37 to read as follows:

37. Notwithstanding the environmental sampling locations specified in Condition No. 32 of this license, the licensee shall perform air particulate, radon, soil, and vegetation sampling at the three locations listed below:
- A. The Weather Station.
 - B. The Berryhill House (background).
 - C. A site which will monitor impacts at the nearest downwind residence. This shall be accomplished by sampling at the nearest residence (existing site #102A) or at a location between the tailings pond and the residence. The licensee shall notify the NRC of any changes in the location of the sampling station used to satisfy this requirement.

[Applicable Amendments: 12]

All other conditions of this license shall remain the same. The license is being reissued to incorporate the addition specified above.

Please note that an amendment tracking notation has been added to your license to assist in identifying modified license conditions. Please review the notations and notify us if you have any concerns. You will note that Amendment No. 1 issued the revised source material license. It is therefore not included in the tracking notation.
