Subject: CNWRA Research Program Second Quarterly Report, CY91

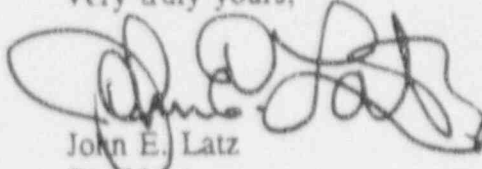

Dear Ms. Mearse:

Enclosed is the subject Research Program Quarterly Report for the second calendar quarter of 1991 (April 1 through June 30, 1991). This document is provided consistent with the revised Research Project Plans which commit to publish Quarterly Reports on research conducted at the Center.

Quarterlies report the results of technical work accomplished, as opposed to providing project status information such as is done in the Program Manager's Periodic Report. Each of the several research projects that has been approved to date is represented in this report, with the depth of reporting adjusted, as appropriate, to the stage of development of and progress on the project.

Please contact me or W. Patrick if you have any questions regarding this matter.

Very truly yours,

  
John E. Latz  
President
