MEMORANDUM FOR: John T. Larkins, Executive Director  
Advisory Committee on Reactor Safeguards

FROM: Ashok Thadani, Associate Director  
for Inspection and Technical Assessment  
Office of Nuclear Reactor Regulation

SUBJECT: ACRS REVIEW OF COMMISSION PAPER ON AMENDMENTS TO 10 CFR  
PART 73 TO PROTECT AGAINST MALEVOLENT USE OF VEHICLES AT  
NUCLEAR POWER PLANTS

The enclosed Commission paper has been developed by the staff to obtain Commission approval to publish a final rule that will require nuclear power plant licensees to protect their facilities against malevolent use of vehicles. The regulatory analysis includes a Safeguards Information enclosure which will be provided in separate correspondence. The paper is currently in the final stage of NRR management review and concurrence and is scheduled for review by CRGR early in April. ACRS comments on the proposed rulemaking are addressed in the Commission paper and Federal Register notice. We understand that this paper is scheduled to be discussed with ACRS in an April 1994 meeting. If you need additional information, please call me at 504-1274 or Frank Congel at 504-1088.
