

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

December 28, 1994

The Honorable Richard H. Lehman, Chairman
Subcommittee on Energy and Mineral Resources
Committee on Natural Resources
United States House of Representatives
Washington, DC 20515

Dear Mr. Chairman:

The NRC has sent to the Office of the Federal Register for publication the enclosed proposed amendments to the Commission's rules in 10 CFR Parts 20, 30, 40, 61, 70, and 72. The amendments if adopted would address situations whereby a licensee terminates licensed activities or licensed activities are transferred to another licensee. Specifically, the proposed rule adds requirements for licensees to transfer certain records that are necessary to decommission the facility effectively and to evaluate public dose from previous licensed activities. The proposed rule also adds requirements for licensees to forward to the NRC certain records, such as waste disposal and dose to the public prior to license termination. The Commission is issuing the proposed rule for public comment.

Sincerely,

A handwritten signature in black ink, appearing to read "Dennis K. Rathbun".
