September 29, 1983

Docket Nos. 50-277
50-278

Mr. Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulations
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Reference: Letter, S. L. Daltroff, Philadelphia Electric
Company, to D. G. Eisenhut, USNRC, dated
June 30, 1983

Dear Mr. Eisenhut:

The reference letter contained a commitment to provide reports as required by NUREG-0619, "BWR Feedwater Nozzle and Control Rod Drive Line Nozzle Cracking" (November 13, 1980) to the Commission by September 30, 1983.

This letter transmits our report as required by paragraph 4.4.3.1 (1) of NUREG-0619. The report contains a description of modifications and appropriate justification for implementation of NUREG-0619 with respect to the feedwater nozzles.

Please note that attached to the report is a copy of NEDE-30224, "Peach Bottom Atomic Power Station, Units 2, Feedwater Nozzle Fracture Mechanics Analysis to Show Compliance with NUREG-0619". This topical report is classified as Class III Proprietary by General Electric Company as indicated in the attached affidavit, and we request that the information contained in this report be withheld from public disclosure in accordance with the provisions of 10CFR 2.790.

PA01
11

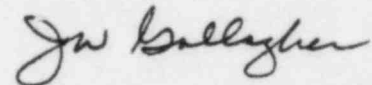

Mr. Darrell G. Eisenhut

Page 2

This report completes the reporting requirements of NUREG-0619, paragraph 4.4.3.1(1).

If you have any questions or require additional information, do not hesitate to contact us.

Very truly yours,

A handwritten signature in cursive script, appearing to read "JW Gallagher".
