RE Docket No. PRM-35-12

Dear Secretary,

I am a patient who has been treated for an infection with H pylori. My physical condition is now greatly improved. I understand the importance of having this disease diagnosed and treated correctly. I have read the petition for rulemaking submitted by Tri-Med Specialties, Inc. At present, if a patient does not live in a city with a large medical center, they must travel great distances to have the test performed. The other option is to have an endoscopy performed. This is both inconvenient and expensive. Therefore, I must urge you to approve this petition, thus making the ¹⁴C Urea Breath Test more accessible to patients throughout the country. Thank-you for your time in this matter.

Sincerely,

Beth B. Thompson
