

SEP 29 1983

Docket No. 50-373

Docket No. 50-374

Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Vice President
Post Office Box 767
Chicago, IL 60690

Gentlemen:

This refers to the routine safety inspection conducted by Messrs. N. Choules and R. Hasse of this office on August 4, 5, 8-11, and 15, 1983, of activities at LaSalle County Station authorized by NRC Operating License No. NPF-11 and NRC Construction Permit No. CPPR-100, and to the discussion of our findings with M. W. Valle and others at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

This inspection was conducted to address selected items of noncompliance and unresolved and open items associated with the Morrison Construction Company as documented in Inspection Report No. 50-373/82-40, 50-373/82-10. Additional inspections which addressed the activities of the Morrison Construction Company were documented in Inspection Report Nos. 50-373/82-27, 50-374/82-24; 50-373/83-10, 50-374/83-04; 50-373/83-13, 50-374/83-03; 50-373/83-15, 50-374/83-13; 50-374/83-22; and 50-373/83-31, 50-374/83-30. The findings of these inspections indicate that the quality documentation adequately describes the as-built conditions at the station with respect to work performed by the Morrison Construction Company.

No items of noncompliance with NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure(s) will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1). If we do not hear from you in this regard within the specified periods noted above, a copy of this letter and the enclosed inspection report will be placed in the Public Document Room.
