Dr. J. F. van de Vate
Aerosol Research Group Leader
Chemistry Division
Netherlands Energy Research
Foundation ECN
P. O. Box 1
1755 ZG Petten (N. H.)
Netherlands

Dear Dr. van de Vate:

Joop

I am enclosing for you the final draft of the revised summary statements from our April 3, 1979 meeting on the "Critical Review of Aerosol Instruments" for comment.

If you will be attending the ANS meeting in Seattle you can offer comments at our special meetings scheduled for Sunday, August 19 (2 P.M.), and if necessary Wednesday, August 22 (9 A.M.). I will advise you of meeting locations. If you will not be in Seattle, please provide comments to me before August 17.

I am making a survey within the CSNI Aerosol Experts Group to ascertain the extent of peer review given to the state-of-the-art report on nuclear aerosols, outside of your immediate organization (e.g. universities, research institutes and industry). I would appreciate receiving your input in about one month.

I hope you are having an enjoyable summer.

Sincerely,

Mel
