

NOV 7 1979

Dr. Benjamin Y. H. Liu
Mechanical Engineering Department
University of Minnesota
Minneapolis, Minnesota 55455

Dear Dr. Liu:

The Nuclear Energy Agency Committee on the Safety of Nuclear Installations (CSNI) within the Organization for Economic Cooperation and Development (OECD) is sponsoring a Specialist Meeting on Nuclear Aerosols in Reactor Safety. The meeting will be held in Gatlinburg, Tennessee, April 15-17, 1979.

The Specialist Meeting is being organized through the CSNI Group of Experts on Nuclear Aerosols in Reactor Safety who will serve as the Program Committee. Dr. W. O. Schikarski of the Federal Republic of Germany is the Chairman of the meeting.

I am pleased to invite you to participate in this meeting because of your well-recognized expertise in areas directly related to nuclear aerosol behavior.

The background, purpose and agenda topics for the meeting are described in the enclosed Call for Papers.

If you plan to submit an abstract of a paper for the meeting, you are asked to please limit the paper to new information beyond that already noted in the CSNI State of the Art Report on Nuclear Aerosols (CSNI/SOAR NO. 1). This report can be obtained from the OECD as noted in the Call for Papers. In the interim I am enclosing a copy of certain summary sections of the report for your information and use. Participants who plan to submit a paper on nuclear aerosol measuring techniques should review the enclosed summary of the April 1979 meeting on this subject.

Abstracts of contributions to the meeting should be sent to me in time to arrive no later than December 7, 1979.
