Dear Mr. Mowry:

This refers to your letter dated February 6, 1992, for an amendment to Materials License 30-23697-01E, and for an amendment to the device registration for your steel gunsights.

Your February 6, 1992, request is subject to amendment fees totalling \$1,450 as specified in fee Categories 3H (\$250) and 9A (\$1,200) of \$170.31, 10 CFR 170, which went into effect August 9, 1991, copy enclosed.

In addition to the fees specified above, an additional fee is required for Registration No. NR-365-D-101-E issued November 13, 1991. During the final review of Amendment No. 3, License 30-23697-01E, it was found that a device evaluation had been performed, and Registration Number NR-365-D-101-E had been issued without the required fee having been collected. Amendment No. 3 was issued November 20, 1991, and Registration NR-365-D-101-E was issued November 13, 1991, in accordance with your April 17, 1991, application and subsequent supplemental information. An amendment fee of \$280 was submitted with your April 17, 1991, application. However, an application fee of \$2,600 is also required for the device evaluation as specified in fee Category 9A of \$170.31, 10 CFR 170 dated May 31, 1990, (copy enclosed) which was in effect at that time. Therefore, an additional fee of \$2,600 is required for the issuance of Registration NR-365-D-101-E.

Payment of the fees specified above (totalling \$4,050) should be made to the U.S. Nuclear Regulatory Commission and mailed to the following address: U.S. Nuclear Regulatory Commission, ATTN: Sandra Kimberley, License Fee and Debt Collection Branch, OC/DAF, Mail Stop MNBB 4503, Washington, D.C. 20555.

Your February 6, 1992, application will be forwarded to the Licensing staff for processing upon receipt of the fees. When submitting the additional fees, please refer to CONTROL NUMBER 021370.
