Gearhart Industries, Inc.
Go Wireline Service Division
ATTN: Bob Voelker
Safety Director
P. O. Box 1258
Fort Worth, TX 76101

Gentlemen:

Thank you for your letter of July 19, 1983, in response to our letter and the attached Notice of Violation dated June 27, 1983. As a result of our review, we find additional information, as discussed with Mr. Bob Voelker during telephone calls on August 3 and 5, 1983, is needed.

You are requested to provide an evaluation of the radiation exposure to individuals who change and clean "O" rings on your source assembly using a properly calibrated survey meter suitable for measuring high dose rates at the surface of the assembly. Also, please demonstrate that the radiation dose received by individuals is as low as reasonably achievable (ALARA) in accordance with 10 CFR 20.1(c).

Please provide us your response to the above concerns within 10 days of your receipt of this letter so that we can continue our review of this matter.

Sincerely,

Glen D. Brown, Chief
Technical Program Branch
