Mr. Harry P. Salmon, Jr
Resident Manager
New York Power Authority
James A. FitzPatrick Nuclear Power Plant
Post Office Box 41
Lycoming, New York 13093

Dear Mr. Salmon:

SUBJECT: EXAMINATION REPORT NO. 50-333/94-26 (OL)

The NRC administered initial examinations during the week of October 24, 1994, to employees of your company who had applied for licenses to operate the FitzPatrick Nuclear Power Plant. The applicants consisted of two reactor operators (ROs) and five senior reactor operators (SROs). These examinations addressed areas important to public health and safety and were administered using the guidance of Revision 7 to the Examiner Standards (NUREG-1021). Mr. Williams presented preliminary findings and observations to you and members of your staff in an exit meeting on October 28, 1994.

All applicants passed the examination and were issued licenses. The candidates demonstrated strong performance in the simulator. Communications were good and each three man crew worked well together.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions regarding this information, please contact me at (610) 337-5211.

Sincerely,

Glenn W. Meyer, Chief
BWR and PWR Sections
Division of Reactor Safety
