Gentlemen:

The purpose of this letter is document telephone conversations held with the members of the Nuclear Regulatory Commission (NRC) on November 22, 1994 regarding the NRC's request for additional information dated November 9, 1994. The November 9, 1994 letter requested, within 60 days of receipt, that additional information be provided to support the NRC's review of Carolina Power & Light Company's August 31, 1992 response to Generic Letter 88-20, "Individual Plant Examination For Severe Accident Vulnerabilities — 10 CFR 50.54(f)."
