Docket Nos: STN 50-456
and STN 50-457

Mr. Dennis L. Farrar
Director of Nuclear Licensing
Commonwealth Edison Company
P.O. Box 767
Chicago, Illinois 60690

Dear Mr. Farrar:

Subject: Staff Evaluation of the Modification to
Westinghouse D4/D5/E Steam Generators

Enclosed is the staff generic evaluation (NUREG-1014) related to modification of Westinghouse D4/D5/E steam generators. Appendix B of NUREG-1014 is the Counterflow Steam Generator Owners' Review Group's Technical Review Committee Report of July 1983. The staff has reviewed this report and finds it acceptable except for noted exceptions and comments. We further present additional requirements (NUREG-1014, Section 1.3). Plant-specific evaluations will be provided on each docket as requests for installing the modification are received.

We conclude, pending plant-specific verification and documentation of safety analyses, that the modification of the D4/D5/E steam generators is acceptable and that the modified steam generators can be operated at 100% of their design capacity.

Sincerely,

/S/ A. Schwencer

Thomas M. Novak, Assistant Director
for Licensing
Division of Licensing
