Docket Nos. 50-282 License Nos. DPR-42  
50-306 DPR-60

Submittal of a Revised Figure Associated with  
Request for Relief #17 of the 3rd 10-Year Inservice  
Testing Program to the Requirements of ASME Section XI

This submittal is being provided to correct an error of labeling of a valve on a figure submitted with a Request for Relief from ASME Section XI inservice testing requirements. On September 20, 1994, we submitted for NRC Staff review our 3rd 10-year Inservice Testing Program. In our submittal we requested relief from some requirements of the ASME Section XI Code. Request for Relief #17 had an attached figure of the Containment Spray System, entitled Request for Relief #17, Figure 1. This figure identified the valves to which the request applied. The figure highlighted the wrong valves and we are providing a corrected figure entitled, Request for Relief #17, Figure 1, Revision 1.

We apologize for any inconvenience this error may have caused. Please contact Jack Leveille (612-388-1121, Ext. 4662) if you have any questions related to this submittal.
